## About Us

Founded in 1995 in Tirupur, Win Exports is a reputed and professionally managed garment manufacturing and exporting company. The organization is led by Mr. Kumarasamy, who brings over 30 years of expertise in the knitted garment industry, driving strong technical, production, and operational excellence.

We are a vertically integrated manufacturer specializing in high-quality knitted garments for leading global retailers. Our operations include two state-of-the-art production units equipped with 1,040 machines, supported by a centralized cutting facility that enhances efficiency, speed, and accuracy.

With complete in-house capabilities Spinning, Knitting, Dyeing, Washing, Printing, and Embroidery we maintain full control over quality, lead time, and cost, ensuring that every product meets international standards at competitive prices.

Strategically located in Tirupur, the global hub for knitted garment manufacturing, we benefit from world-class infrastructure and a skilled workforce.

## Our Strengths

### Advanced Machinery & Technology

We operate with the latest machinery and modern production technologies, ensuring superior quality, enhanced efficiency, and exceptional consistency. Our continuous investment in innovation provides a competitive edge.

### Strong Production Coordination

Seamless integration between processing and production ensures smooth workflow, uniform quality, and assured delivery timelines. This coordination helps us consistently achieve high levels of reliability and client satisfaction.

### Dedicated Sampling Excellence

Our expert sampling team collaborates closely across departments to create samples with precision and creativity. This results in faster development, accurate interpretation of buyer requirements, and samples that truly reflect the final product.

### Uncompromised Quality Assurance

Quality is at the core of everything we do. Our experienced quality control team performs stringent checks at every stage—from raw material to final packing. With advanced testing equipment and clearly defined protocols, we ensure every garment meets global quality expectations.

### Research & Development Team

Our R&D Team, composed of experienced specialists, ensures fast, accurate, and high-quality sample development. By working closely with all departments, they translate client concepts into well-engineered, production-ready samples with precise fit, detailing, and flawless execution, ensuring fast turnaround and flawless execution.

## Fabric Team

Our Fabric Team leads innovation by researching new fabric qualities, studying global trends, and ensuring that each fabric meets the highest benchmarks of comfort, performance, durability, and sustainability.

## Merchandising Team

Our Merchandising Team acts as the bridge between clients and production—managing developments, sampling, costing, approvals, production follow-ups, and communication. Their expertise ensures clarity, professionalism, and smooth execution from order confirmation to shipment.

## Quality Control Team

Our QC Team conducts systematic inspections at every stage—fabric, cutting, sewing, processing, finishing, and packing. Their meticulous checks guarantee consistency, quality, compliance, and defect-free output in every shipment.
